IMPROVED
STORAGE

WELCOMING
& INVITING

WHAT

A new library for the children of North Elementary School will help increase our students' enthusiasm for visiting the library, and will also be a learning destination for all students at North. Our plans call for the addition of SmartBoard technology and iPads, and the implementation of OSMO, an award-winning game system that changes the way children interact with the iPad by opening them up to hands-on play.

WHY

Libraries are an investment. Currently, broken and bowed shelving is impacting the longevity of our learning materials. The proposed shelving will hold books in new configurations that help our students get the most out of their library experience, based on their age. The new shelving will also protect the collection - eliminating the current crushing of books and making it difficult for the students to pull them.

WHO

Students and staff will benefit greatly from this new redesigned layout and overall feel of the new library environment. This will be a place where teachers can work with groups of students; where community groups can gather; and provide a new space for teachers to educate our students.

WHEN

With your help, the new North Elementary School Library will be installed during the Summer of 2019!

TEAM

Kathy Spiewak, North Elementary Principal

Clare Dempsey, North Elementary Librarian

Jaymee Schrader, North PTO Liaison

Nicole Ziegler, North PTO Liaison

Karen Weckerly, North Parent Volunteer and PTO Secretary

Melissa Kendzora-Smith, MS, Library Information Science, North Parent Volunteer
